

Kids' Project  
Florida District NMI  
2018—2019  
Goal - \$3,000

## School Computers for Belize

The Belize Church of the Nazarene has 7 Nazarene elementary schools located throughout the country. There are over 2,000 children in these Nazarene schools. Our goal is to equip each school with a mobile computer lab so that the children will have a modern learning environment. The mobile labs can be moved from class to class using tablets with keyboards for ease of storage and transportation. The children in these schools would be moved into the 21<sup>st</sup> century, thus giving them greater opportunities for the future. The goal for this project is to provide 20 tablets at \$150 each.
